

By being relatable partners with our customers for software services and solutions, we grow and face the challenges of modern times together.

Core Differentiation Principles

- People-focused collaboration with customers and partners.
- Persistency in solving problems and finishing the job.
- Long term support with customers and partners.

Satisfied customers bear testimony to the quality of our services.

“We believe our most valuable resource is our people, working as a team to support and solve our customers’ problems”

Headquartered in Kuala Lumpur, Malaysia, Origin Integrated Studios is one of the fast-growing Multimedia Super Corridor (MSC) Status software development and solutions companies committed to creating innovative and creative solutions for Malaysia and its region. While very few software development companies focus on enterprise systems for the healthcare industry, Origin is driven by a mission to make a difference by providing quality healthcare software solutions.

We are founded by a team of talented and passionate software developers and designers, brimming with energy and enthusiasm. Our team has vast experience in the development, implementation, and support of Hospital Information System (HIS), Electronic Medical Record (EMR) and Clinical Information System (CIS).

We believe our most valuable resource is our people, working as a team to support and solve our customers’ problems. We work closely with our customers, providing cost-effective solutions suitable for their needs and on-going technical and consultancy support. We are a people company, focusing on long term and trusting relationships with our customers, the main ingredient of successful project implementations and longevity.
