

# COMPANIES TO WATCH

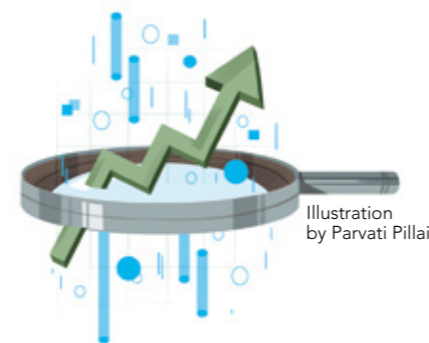

Illustration by Parvati Pillai

The Nikkei-FT-Statista High-Growth Companies Asia-Pacific 2021 is a ranking of the 500 companies in the Asia-Pacific region that have achieved the highest compound annual growth rate for revenue between 2016 and 2019. The survey covers both private and public companies headquartered in 13 countries and regions in the Asia-Pacific with annual revenue of more than \$100,000 in 2016 and more than \$1 million in 2019. Although the search was extensive, the ranking does not claim to be complete, as some companies declined to make their figures public or did not participate for other reasons.

Note: Twinny resubmitted its data and has moved to 101st place from 4th place since original publication of the ranking. This ranking has been amended to reflect the change.
